

## BASiS 1.1 Update

---

Thank you for downloading the 1.1 update for Vir2 Instruments' BASiS.

To install the 1.1 update, simply replace your old Instruments folder (inside the BASiS library folder) with the new Instruments folder contained in the 1.1 update ZIP file. No projects currently using VI.ONE patches will be affected.

The 1.1 update includes the following improvements and features:

- Improved blending and smoothness of legato mode in all electric, upright, and fretless instruments.
- Various other small fixes and improvements.

We hope you enjoy this new BASiS update!
